

Capp'r

The catalyst

Universal re-useable 3-in-1 opener, spout and closure for beverage cartons.

Together we must reduce plastic packaging waste. And use less fossil plastics. So why stick to single use caps on cartons with Capp'r available? A clever design. Developed to meet consumer needs and deliver convenience. Easy. No spills, no residue. After use, simply remove, rinse or clean in the dishwasher and use again.

Again. And again.

More than a solution: a catalyst of change in packaging design.

Pack to the future - Re-use to help save the planet

Eliminating single use caps and spouts on familiar cartons allow a serious reduction of the carbon footprint. It saves materials, energy and costs. Plastic waste goes down with at least 25%. Capp'r is a catalyst to impact.
